On an ongoing basis, when necessary, certain parties such as a printing firm will enter into a non-disclosure agreement with the Fund.

Fund Policies

Investment Restrictions: Investment restrictions were selected to aid in maintaining the conservative nature of the Fund. These investment restrictions are the Fund's fundamental investment policies and therefore may not be changed except by the approval of a majority of the outstanding shares; i.e. A) 67% or more of the voting securities present at a duly called meeting, if the holders of more than 50% of the outstanding voting securities, are present or represented by proxy, or B) of more than 50% of the outstanding voting securities, whichever is less. Under the Fund's fundamental investment policies, the Fund may not:

- a) Change Fund's Investment Objectives.
- b) Borrow money or purchase securities on margin, but may obtain such short-term credit as may be necessary for clearance of purchases and sales of securities for temporary or emergency purposes in an amount not exceeding 5% of the value of its total assets.
- c) Make investments in commodities, commodity contracts or real estate although the Fund may purchase and sell securities of companies which deal in real estate or interests therein.
- d) Make loans. The purchase of a portion of a readily marketable issue of publicly distributed bonds, debentures or other debt securities will not be considered the making of a loan.

- e) Acquire more than 10% of the securities of any class of another issuer, treating all preferred securities of an issuer as a single class and all debt securities as a single class, or acquired more than 10% of the voting securities of another issuer.

Temporary Defensive Position & Portfolio Turnover

The Fund follows the portfolio management methodology with no exceptions other than those considered to be minor that are discussed in section "Principal Investment Strategies of the Fund" in the Prospectus.

MANAGEMENT OF THE FUND

Board of Directors

Shareholders meet annually to elect all members of the Board of Directors, select an independent auditor, and vote on any other items deemed pertinent by the incumbent Board. The Directors hold ultimate responsibility for running the Fund and that the Fund operates in accordance with its stated objectives, policies and investment restrictions. The Board oversees the actions of the Fund's officers, portfolio manager, and investment adviser. The Board appoints officers to run the Fund and selects an Investment Advisor to provide investment advice (See section "Investment Adviser" in the Prospectus). It plans to meet at least four times a year to review Fund progress and status.

Risk Oversight

The Fund's Board of Directors consists of four directors of which three are independent. The Board oversees risk as part of its oversight of the Fund. The Fund's Board leadership positions include a Chairperson and Chief Compliance Officer ("CCO"). The Board selected these leaders from its membership to assist the Board on overseeing Fund operations and to assess any Fund risks. The Board reviews reports from its CCO, officers, investment adviser, and auditor with regard to any risks facing the Fund. Not all risks that may affect the Fund can be identified or processes and controls developed to eliminate or mitigate their occurrence or effects, and some risks are simply beyond any control of the Fund or the Manager, or other service providers.

The following provides an overview of the considerations that led the Board to conclude that each member currently serving as a Director should serve as a Director. Generally, no one factor determined the nomination or appointment of an individual to the Board. Among the factors the Board considered when concluding that an individual should serve as a Director were the following: (a) the individual's business and professional experience and accomplishments; (b) the individual's ability to work effectively with other

Directors: (c) an individual’s skills and experiences that would benefit the Board; and the individual's prior experience, if any, serving in unique institutions and industries. Below is a summary of each Director's professional experience and other considerations that contributed to the Board's conclusion that such Director should serve as a Director.

Charles G. Camarata – Mr. Camarata is a private investor. He received a B.S degree in accounting/economics and a Master of Business Administration (M.B.A) from Monmouth College in New Jersey.

William S. Foote, Jr. – Mr. Foote is a private investor who has extensive sales experience in the light and heavy-duty outdoor equipment industry. He received a B.S degree in business administration and a Master of Business Administration (M.B.A.) from Monmouth College in New Jersey.

Peter J. Lencki - Mr. Lencki has investment management and investment research experience as President of an investment advisory company ("ERC") since 1996. Mr. Lencki also serves as the Fund's Chief Compliance Officer.

George Sikora – Mr. Sikora is a private investor. He served in the U.S Army and in law enforcement as a police officer in Bayonne, New Jersey.

$$P(1+T)^n = ERV$$

Where: P = a hypothetical initial payment of \$1000; T = average annual total return; n = number of years; and ERV = ending redeemable value.

Period	Initial Purchase	Average Annual Return	Ending Redeemable Value 12/31/2020

As with all mutual funds past results are not an indication of future performance.

Average Annual Total Return (After Taxes on Distribution): * The average annual total return (after taxes on distribution) is computed by finding the average annual compounded rates of return over the period that would equate the initial amount invested to the ending value, according to the following formula:

$$P(1+T)^n = \frac{ATV}{D}$$

Where: P = a hypothetical initial payment of \$1,000; T = average annual total return (after taxes on distributions); n = number of years; ATV = ending value of a hypothetical

\$1,000; D = payment made at the beginning of the 1-, 5-, or 10-year periods at the end of the 1-, 5-, or 10-year periods (or fractional portion), after taxes on Fund distributions but not after taxes on redemptions.

Period	Initial Purchase	Average Annual Return	Ending Redeemable Value 12/31/2020

Average Annual Total Return (After Taxes on Distributions and Redemption): *

$$P(1+T)^n = ATV$$

DR

Where: P = a hypothetical initial payment of \$1,000; T = average annual total return (after taxes on distributions and redemption); n = number of years; ATV = ending value of a hypothetical \$1,000; DR = payment made at the beginning of the 1-, 5-, or 10-year periods at the end of the 1-, 5-, or 10-year periods (or fractional portion), after taxes on Fund distributions and redemption.

10 Years 12/31/10-12/31/20	\$1,000	9.15%	\$ 2,400

* After tax returns are calculated using historical highest federal tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an individual investor's tax situation and may differ from those shown.
